

Maintenance Instruction

everroll®

Page 1 of 1

1.	everroll® is a heavy-duty, dense and very durable elastic flooring product. Nevertheless, like with every other product constant dirt and poor maintenance can cut back the life span and durability substantially.
1.1 Therefore	<ol style="list-style-type: none">1. Always keep the floor clean of all debris, dirt and sand.2. Sweep and / or vacuum floor on a regular basis.3. everroll® can be damp-mopped, using a solution of water and a light detergent.4. Heavy stains are removed by scrubbing with a nylon brush, using a high concentration of a mild detergent. Wash out with clear water. <p>Please ask for details.</p>
1.2 Caution	<ol style="list-style-type: none">1. Avoid abrasive alkaline or cheap cleaners.2. Keep surface free of grit, oil, gasoline and acids.
